

# FoCos Optix

Synergistic Solutions

A High Speed Optical & RF Products & Services Co.

# FoCos Optix

Synergistic Solutions

## Mission Statement

- To provide the best Sales, Service and Support for our customers and our principals.
- To be the primary resource for High Speed Optical and RF products and services for Customers and Principals alike.
- To stay abreast of the latest in technology.

# FoCos Optix

Synergistic Solutions

## 25 Years+: History & Background

- Electro-Optics, Photonics & Optical Components
- Territorial Establishment, Development & Growth
- New Product Introduction
- Company Recognition & Brand Establishment
- Startups as well as established companies

# FoCos Optix

Synergistic Solutions

## Features

- Established in 2003
- History of success in territory management experience.
- Fully equipped home office
- “Rolodex” of accounts
- User Friendly

# FoCos Optix

Synergistic Solutions

## Benefits

- Proactive prospecting, lead generation and follow-up.
- New Business Development
- New Product Introduction
- Technical presentations
- Market intelligence
- Closing Sales.

# FoCos Optix

Synergistic Solutions

## Market Experience

- Telecom
- Datacom
- Government
- Military
- Sensor

# FoCos Optix

Synergistic Solutions

## Product Experience

- Optical Filters
  - From UV (340nm) to the Far IR (10.6 microns)
- Detector Optics
  - Si, GaAs, InGaAs, InSb, HgCdTe, etc.
- Fiberoptics
  - TX/RX , ROSA/TOSA, Transceivers & Transponders, etc.
  - MEMS based VOAs, Channel Equalizers, etc.
- Subsystems
  - EDFA , ASE Sources, Lidar, etc.

# FoCos Optix

Synergistic Solutions

## Principals

### ***Archcom Technologies:***

- InGaAs PINs & APDs
- WDM Lasers & Receivers
- TOSA/ROSA
- 40g RX

### ***Active Optical MEMS:***

- MEMS VOAs
  - 6.5V to 20V Blocking/Non-Blocking
  - Smart VOAs
  - VOA Arrays
  - Multi Channel Equalizers

### ***Custom Calibration Solutions:***

- *Repair* & Calibration of high Speed Optical and RF test equipment

### ***PTH Manufacturing:***

- Custom fiber & Copper cable assemblies
- Custom Sheet metal
- Precision Machining

### ***Reflex Photonics:***

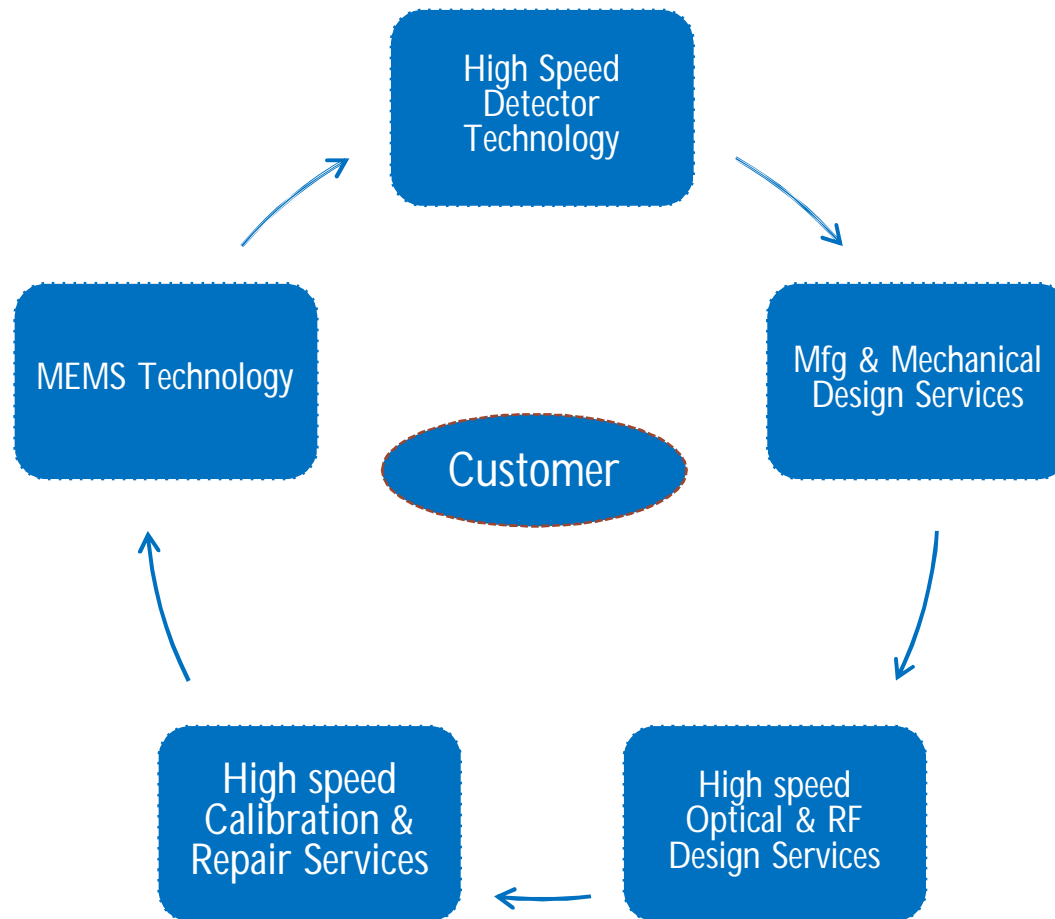

- High Speed Parallel Optics (20G to 100G)
- SNAP 12 TX/RX
- QSFP
- Mini Parallel Optical Engines

### ***Spectrum Integrity:***

- Advanced PCB Design & Fabrication Services
- RF & Microwave Design
- Chip-on-board & Chip-on-Flex design
- High Performance Test Hardware
- Custom Test Sockets (ISC Technology)

Synergistic Solutions

# FoCos Optix

Synergistic Solutions

## Our Focus:

- Customers
- Principals
- Products
- Services
- Quality

# FoCos Optix

Synergistic Solutions

*Thank you!*
